Full-Stack (Front-End oriented) developer with 3+ years of experience developing JavaScript, React, NodeJS, HTML5, CSS3 and web applications on a self-employed business. I worked on a small development team delivering end to end applications for different organizations with a variety of projects from web applications to Java distributed management systems. I also had the opportunity to work with agile methodologies such as Scrum and version control systems such as Git.

EXPERIENCE

Syersy Argentina, Founder and Front-End Software Engineer - 2018-2021 (2+ years)
Stack: Full-Stack (Front-End Focus): React.JS, NodeJS, Java, PostgreSQL - Rest-API, Express.JS - Redux - JavaFX.

SAMS - 2018-2021 (2+ years)
A Java, JavaFx, CSS and PostgreSQL distributed management software for Songahm Argentina taekwondo organization.
- Reduce loading times by 90% reducing the complexity of Front-End operations and implementing caching for certain API calls.
- Increasing marketing team predictions accuracy by 60% implementing a statistical dashboard that provides graphical information and sales data.
- Improved student's certification time by 40% by integrating the existing software with a React/NodeJS web application to automate the process.
- Helped design and implement a software management system to increase organization control and automate internal processes creating a Java desktop distributed software.

Syersy.com – 2018-2020 1+ years – https://syersy.com
A HTML, CSS, React.js, Node.js, Express.js, and PostgreSQL web application for a self-employed business.

PROJECTS

Outfit Manager – 2024 – https://github.com/Kuesmar/outfitManager/
A small web application using React drag and drop native.

Carrito App- 2024 – https://github.com/Kuesmar/carritoManager/
A web application to emulate a shopping cart.
- Stack: HTML, CSS, TypeScript, React.js, Node.js.

SKILLS

Programming Languages: Proficient: JavaScript, TypeScript, HTML5, CSS3. Familiar: Python, SQL, Java.
Frameworks and Tools: React.js, Redux, Node.js, Express.js, GraphQL, Git, GitHub, Vite, Docker, Bootstrap, Material-UI, NextUI, React Testing Libraries, Jest, Cypress, Sequelize.
Languages: English, Intermediate; Spanish, Native. Portuguese: Basic.

EDUCATION

UNNE National North-East University – Corrientes, Argentina
Bachelor degree in Information Systems (not finished) Feb 2013 - Dec 2015
Certifications:
EducaciónIT: *Javascript Advanced Developer Front-End - Dec 2019*
EducaciónIT: *Web layout: HTML5 and CSS3 - Oct 2019*
EducaciónIT: *Java Advanced Programming: Threads, Networking, J2 - Aug 2019*
EducaciónIT: *Java Standard Programming, J2SE - Jul 2019*
EducaciónIT: *HTML5: Web page fundamentals - Apr 2019*
EducaciónIT: *Object Oriented Paradigm introduction - Apr 2019*
EducaciónIT: *Database and SQL introduction - Feb 2019*
